Certified has expanded its offerings to include a wide selection of trees, shrubs and perennials.
Certified Nurseries™ boasts a rich legacy, spanning nearly 75 years in the art of cultivating garden roses.

Originally established in 1949 as Cooperative Rose Growers, the company comprised 50 dedicated rose growers in East Texas, alongside its processing facility in Tyler.

Our diverse offering of award-winning roses, trees and plants can be found in over 5,000 retail outlets throughout the U.S., Canada and Puerto Rico including independent garden centers, hardware stores and mass merchandisers.

Beyond our acclaimed roses, Certified has expanded its offerings to include a wide selection of trees, shrubs and perennials — from fruit trees and berries to crape myrtle trees, renowned for their rapid growth, distinctive foliage, stunning color and drought tolerance.
At Certified Nurseries™, we take pride in growing excellence across every aspect of our business. In addition to award-winning roses, we offer a wide variety of fruit trees, ornamental trees, shade trees, crape myrtles, perennials and more. Every plant is container-grown, ensuring a strong root system and producing a hearty plant that customers can have confidence in when it's time to plant in their yard or display on their patio.
Established in 1980, our tree farm (formerly Ran-Pro Farms) started as a family venture on a 150-acre nursery.

Since then, we’ve grown into a thriving business spanning 280 acres complete with an extensive array of greenhouses and innovative outdoor production which allows us to continuously adapt to industry shifts and challenges.

Throughout our journey, innovation has driven our success, from developing drip irrigation systems to enhancing potting techniques. Our liner program features a diverse range of plug liners, including tray liners and three-gallon liners that offer consistency in plant shape, size and quality. Looking ahead, we plan to expand our tree offerings, diversify our perennial program, and embrace contract growing initiatives to ensure continued success for independent garden centers and gardeners alike.

We take pride in growing excellence.
For over 75 years, Certified Nurseries™ has been committed to delivering exceptional, state-of-the-art roses through our extensive breeder network.

Our longstanding partnerships with the world’s leading rose breeders allow us to offer customers award-winning plants recognized for their beauty, health and resilience.

The team at Certified works closely with our growing network of breeders and hybridizers to bring the next generation of roses to home gardeners. We work tirelessly to identify extraordinary new varieties that possess essential attributes such as beauty, fragrance, vigor, resilience and disease resistance.

Each year, we carefully assess hundreds of new varieties with the goal of delivering the right genetics to regions throughout the U.S. Our stringent standards ensure that new introductions undergo thorough evaluations in a wide range of climates.

Certified’s trial gardens serve as testing ground for our extensive line of roses, plants and trees. Our gardens were designed to assess factors like growth patterns, disease resistance and overall performance. Our trials involve careful observation and data collection on aspects such as plant growth and habit, flowering characteristics and disease resistance. Information gathered from our trials ensures we’re delivering plants that are both beautiful and resilient to home gardeners.

Proven in our gardens to flourish in yours.

Finally, a rose as lush and beautiful as it is easy to grow.

With True Bloom Roses®, we use our revolutionary rose breeding process to combine the best features of hybrid tea flowering roses with disease-resistant shrub roses. Once plants are trialed at the breeding station for performance, they undergo years of trialing all over the United States to ensure they live up to our expectation of superior quality.

Floribunda roses are colorful hardy hybrids.

Developed from crossing hybrid teas with polyanthas, this hybrid creates colorful beauties that bloom with profusion. Typical floribundas feature stiff shrubs. They are smaller and bushier than hybrid teas, but less dense and sprawling than polyanthas. Floribundas bloom in all hybrid tea colors and with classic shaped blossoms, in a cluster-flowering habit. Large plant beds are perfect for showing them off!

CLIMBING ROSES

CL. Lavender Crush™

Climber

cv. ‘TEXmourn’

This shrub rose features lavender tones blended with a reverse of creamy white. Clusters of full old-fashioned flowers bow down on graceful arching stems that invite you to take in the intense citrus blossom and rose aroma.

Height/Habit: Climbing canes of 8-10’
Bloom/Petals: Medium; very full 40+; Old fashioned
Foliage: Rich gray-green
Fragrance: Strong
Hardiness Zones: 5 to 9

CL. New Year

Large-flowered Climber

cv. ‘BUYear’

This sport of New Year shares all the attributes of its parent—dense, bushy growth, excellent disease resistance, and almost thornless canes—but its long trusses offer even more festive clusters of blended Spanish orange and golden yellow blooms.

Height/Habit: 8-10’; upright
Bloom/Petals: Medium high-centered; 6-14 reflexed
Foliage: Large, dark green, glossy
Fragrance: Mild
Hardiness Zones: 6 to 9

CL. Perfume Breeze™

Climber

cv. ‘BARise’

This delightfully showy climber displays abundant, bundled clusters of small, double flowers in shades of soft pink to near white. The intense fragrance of the flowers can be carried on the slightest breeze to fill the garden, patio, or entryway. Gently arching stems hold the multitude of flower clusters for an almost wisteria-like effect.

Height/Habit: 6-8’; upright
Bloom/Petals: 1-2”; double, clustered, in bundles; 17-25
Foliage: Medium green
Fragrance: Strong
Hardiness Zones: 5 to 9
CLIMBING ROSES

**CL. PIÑATA**
This bush can be grown as a climber or a rambler, but either way, it’s a stunning show of high-centered, exhibition-form blooms with petals of citrus yellow that are gradually overlaid with vermillion and turn scarlet with age. A good repeat bloomer.

The W. Kordes’ Sohne breeding program is one of the largest in the world.

Before introducing a new rose, Kordes® carefully evaluates it for such qualities as color, size, form, vase life, productivity, disease resistance and fragrance.

Every year, using traditional hybridizing methods, the Kordes® staff creates approximately 1,200,000 new seeds from making crosses. The resulting seeds are harvested and planted for the initial evaluations and selection.
