# The Art of Cultivating Roses

**CERTIFIED  
NURSERIES™**

A rich legacy, spanning  
75 years in the art of  
cultivating garden roses.

Founded in 1949 as Cooperative Rose Growers, our roots trace back to a collective of 50 passionate rose growers in East Texas, supported by a dedicated processing facility in Tyler. Today, our award-winning roses, trees, and plants are available in over 5,000 retail locations across the U.S., Canada, and Puerto Rico, including independent garden

centers, hardware stores, and major retailers. While roses remain the heart of our business, Certified has grown to offer an extensive selection of trees, shrubs, and perennials—ranging from fruit trees and berries to the ever-popular crape myrtle, valued for its rapid growth, striking foliage, vibrant blooms, and exceptional drought resistance.

# CERTIFIED™ TREE FARM

Founded in 1980 as a family-run business on 150-acres, our tree farm—formerly known as Ran-Pro Farms—has flourished into a dynamic operation spanning 280 acres. With a mix of expansive greenhouses and cutting-edge outdoor production, we continually evolve to meet industry demands. Innovation has always been at the heart of our growth, from pioneering drip irrigation systems to refining potting techniques. Our liner program offers a wide selection of plug liners, including tray and three-gallon liners, ensuring uniformity in plant shape, size, and quality.

As we look to the future, we're committed to expanding our tree selection, broadening our perennial offerings, and advancing contract growing programs to support independent garden centers and gardeners alike.

## SUCCESS THROUGH INNOVATION

At Certified Nurseries™, we take pride in growing excellence across every aspect of our business. In addition to award-winning roses, we offer a wide variety of fruit trees, ornamental trees, shade trees, crape myrtles, perennials and more. Every plant is container-grown, ensuring a strong root system and producing a hearty plant that customers can have confidence in when it's time to plant in their yard or display on their patio.

# RESEARCH & DEVELOPMENT

## Longstanding Partnerships

For more than 75 years, Certified Nurseries™ has been dedicated to providing top-quality, cutting-edge roses through our extensive breeder network. Our deep-rooted partnerships with the world's premier rose breeders allow us to offer award-winning varieties celebrated for their beauty, strength, and resilience.

At Certified, we collaborate closely with breeders and hybridizers to introduce the next generation of exceptional roses to home gardeners. We carefully select new varieties based on key traits such as vibrant color, fragrance, vigor, and disease resistance. Each year, we evaluate hundreds of potential introductions, ensuring they thrive in diverse climates across the U.S.

Our trial gardens serve as vital testing grounds for our roses, plants, and trees, allowing us to assess

growth patterns, flowering characteristics, and overall performance. Through meticulous observation and data collection, we ensure that every new introduction meets our rigorous standards—delivering plants that are both stunning and strong, season after season.

# FLORIBUNDAS

**Floribunda roses are colorful hardy hybrids.**

Developed from crossing hybrid teas with polyanthas, this hybrid creates colorful beauties that bloom with profusion. Typical floribundas feature stiff shrubs. They are smaller and bushier than hybrid teas, but less dense and sprawling than polyanthas. Floribundas bloom in all hybrid tea colors and with classic shaped blossoms, in a cluster-flowering habit.
